

VIKING PHOTOGRAPHY

REAL ESTATE PHOTOGRAPHY PREPARATION GUIDE

The Photo Shoot will take no more than two (2) hours. Our photographers will be photographing the interior and exterior of your home, including all of the major rooms. We normally do not photograph the garage, unless it features special amenities.

- If there are any features of the house that are not obvious, please let us know so we can include them in the shoot.
- Please keep pets in the garage or out of sight.
- Remove all vehicles from driveways and please do not park directly in front of the house.
- Please remove any visible garbage cans, so they cannot be seen from the street.
- Remove all garden tools including hoses and sprinklers – mow and rake yard.
- Sweep or blow off driveways, sidewalks, and patios.
- Clear off countertops in the kitchen and bathroom areas.
- Remove photos, notes, and papers from the refrigerator.
- Turn off ceiling fans and televisions.
- Please declutter rooms that may be over-furnished – they do not photograph well.
- Make all beds and tidy bedrooms. Make sure all clothes are hung up or out of sight.
